

## Charge for fire service assistance in aircraft engine testing at Warsaw Chopin Airport

1. The charge is levied for provision by the Warsaw Chopin Airport Fire Service of fire protection, with the use of a fire engine, in aircraft engine testing at Warsaw Chopin Airport.
2. The rate of the charge is **PLN 179** per each provision of assistance.
3. The charge is collected from the air carrier, other aircraft user or the ground handling agent performing engine tests.
4. The VAT tax in the amount stipulated in the Polish law is added to the above charge.
5. If during a single fire service assistance operation engine testing is accompanied by aircraft refuelling or defuelling, only one charge is collected – for securing the aircraft refuelling process based on the "Tariff of airport charges at Warsaw Chopin Airport".
6. The charge is effective as of 1 September 2016.
